

Henry III of England

From Wikipedia, the free encyclopedia

Henry III (1 October 1207 – 16 November 1272) was the son and successor of John "Lackland" as King of England, reigning for fifty-six years from 1216 to his death. His contemporaries knew him as **Henry of Winchester**. He was the first child king in England since the reign of Ethelred the Unready. England prospered during his century and his greatest monument is Westminster, which he made the seat of his government and where he expanded the abbey as a shrine to Edward the Confessor.

He assumed the crown under the regency of the popular William Marshal, but the England he inherited had undergone several drastic changes in the reign of his father. He spent much of his reign fighting the barons over Magna Carta and the royal rights, and was eventually forced to call the first "parliament" in 1264. He was also unsuccessful on the Continent, where he endeavoured to re-establish English control over Normandy, Anjou, and Aquitaine.

of a crown a simple golden band was placed on the young boy's head, not by the Archbishop of Canterbury (who was at this time supporting Prince Louis of France, the newly-proclaimed king of France) but rather by the Bishop of Gloucester. In 1220, a second coronation was ordered by Pope Honorius III who did not consider that the first had been carried out in accordance with church rites. This occurred on 17 May 1220 in Westminster Abbey.^[1]

Under John's rule, the barons had supported an invasion by Prince Louis because they disliked the way that John had ruled the country. However, they quickly saw that the young prince was a safer option. Henry's regents immediately declared their intention to rule by Magna Carta, which they proceeded to do during Henry's minority. Magna Carta was reissued in 1217 as a sign of goodwill to the barons and the country was ruled by regents until 1227.

Wars and rebellions

In 1244, when the Scots threatened to invade England, King Henry III visited York Castle and ordered it rebuilt in stone. The work commenced in 1245, and took some 20 to 25 years to complete. The builders crowned the existing moat with a stone keep, known as the King's Tower.

Henry's reign came to be marked by civil strife as the English barons, led by Simon de Montfort, demanded more say in the running of the kingdom. French-born de Montfort had originally been one of the foreign upstarts so loathed by many as Henry's foreign counsellors. Henry, in an outburst of anger, accused Simon of seducing his sister and forcing him to give her to Simon to avoid a scandal. When confronted by the Barons about the secret marriage that Henry had allowed to happen, a feud developed between the two. Their relationship reached a crisis in the 1250s when de Montfort was brought up on spurious charges for actions he took as lieutenant of Gascony, the last remaining Plantagenet land across the English Channel. He was acquitted by the Peers of the realm, much to the King's displeasure.

Henry also became embroiled in funding a war in Sicily on behalf of the Pope in return for a title for his second son Edmund, a state of affairs that made many barons fearful that Henry was following in the footsteps of his father, King John, and needed to be kept in check, too. De Montfort became leader of those who wanted to reassert Magna Carta and force the king to surrender more power to the baronial council. In 1258, seven leading barons forced Henry to agree to the Provisions of Oxford, which effectively abolished the absolutist Anglo-Norman monarchy, giving power to a council of fifteen barons to deal with the business of government and providing for a thrice-yearly meeting of parliament to monitor their performance. Henry was forced to take part in the swearing of a collective oath to the Provisions of Oxford.

In the following years, those supporting de Montfort and those supporting the king grew more and more polarised. Henry obtained a papal bull in 1262 exempting him from his oath and both sides began to raise armies. The Royalists were led by Prince Edward, Henry's eldest son. Civil war, known as the Second Barons' War, followed.

The charismatic de Montfort and his forces had captured most of southeastern England by 1263, and at the Battle of Lewes on 14 May 1264, Henry was defeated and taken prisoner by de Montfort's army. While Henry was reduced to being a figurehead king, de Montfort broadened representation to include each county of England and many important towns—that is, to groups beyond the nobility. Henry and Edward continued under house arrest. The short period that followed was the closest England was to come to complete abolition of the monarchy until the Commonwealth period of 1649–1660 and many of

the barons who had initially supported de Montfort began to suspect that he had gone too far with his reforming zeal.

But only fifteen months later Prince Edward had escaped captivity (having been freed by his cousin Roger Mortimer) to lead the royalists into battle again and he turned the tables on de Montfort at the Battle of Evesham in 1265. Following this victory savage retribution was exacted on the rebels.

Death

Henry's reign ended when he died in 1272, after which he was succeeded by his son, Edward I. His body was laid, temporarily, in the tomb of Edward the Confessor while his own sarcophagus was constructed in Westminster Abbey.

Attitudes and beliefs during his reign

As Henry reached maturity he was keen to restore royal authority, looking towards the autocratic model of the French monarchy. Henry married Eleanor of Provence and he promoted many of his French relatives to higher positions of power and wealth. For instance, one Poitevin, Peter des Riveaux, held the offices of Treasurer of the Household, Keeper of the King's Wardrobe, Lord Privy Seal, and the sheriffdoms of twenty-one English counties simultaneously. Henry's tendency to govern for long periods with no publicly-appointed ministers who could be held accountable for their actions and decisions did not make matters any easier. Many English barons came to see his method of governing as foreign.

Henry was much taken with the cult of the Anglo-Saxon saint king Edward the Confessor who had been canonised in 1161. Told that St Edward dressed austerely, Henry took to doing the same and wearing only the simplest of robes. He had a mural of the saint painted in his bedchamber for inspiration before and after sleep and even named his eldest son Edward. Henry designated Westminster, where St Edward had founded the abbey, as the fixed seat of power in England and Westminster Hall duly became the greatest ceremonial space of the kingdom, where the council of nobles also met. Henry appointed French architects from Rheims to renovate Westminster Abbey in the Gothic style. Work began, at great expense, in 1245. The centrepiece of Henry's renovated abbey was to be a shrine to Edward the Confessor. It was finished in 1269 and the saint's relics were then installed.

Henry was known for his anti-Jewish decrees, such as a decree compelling them to wear a special "badge of shame" in the form of the Two Tablets. Henry was extremely pious and his journeys were often delayed by his insistence on hearing Mass several times a day. He took so long to arrive on a visit to the French court that his brother-in-law, King Louis IX of France, banned priests from Henry's route. On one occasion, as related by Roger of Wendover, when King Henry met with papal prelates, he said, *"If (the prelates) knew how much I, in my reverence of God, am afraid of them and how unwilling I am to offend them, they would trample on me as on an old and worn-out shoe."*

Criticisms

Henry's advancement of foreign favourites, notably his wife's Savoyard uncles and his own Lusignan

half-siblings, was unpopular with his subjects and barons. He was also extravagant and avaricious; when his first child, Prince Edward, was born, Henry demanded that Londoners bring him rich gifts to celebrate. He even sent back gifts that did not please him. Matthew Paris reports that some said, "*God gave us this child, but the king sells him to us.*"

Appearance

According to Nicholas Trevet, Henry was a thickset man of medium height with a narrow forehead and a drooping left eyelid (inherited by his son, Edward I).

Marriage and children

Married on 14 January 1236, Canterbury Cathedral, Canterbury, Kent, to Eleanor of Provence, with at least five children born:

1. Edward I (b. 17 January 1239 - d. 8 July 1307)
2. Margaret (b. 29 September 1240 - d. 26 February 1275), married King Alexander III of Scotland
3. Beatrice (b. 25 June 1242 - d. 24 March 1275), married to John II, Duke of Brittany
4. Edmund (16 January 1245 - d. 5 June 1296)
5. Katharine (b. 25 November 1253 - d. 3 May 1257), deafness was discovered at age 2. [1]

There is reason to doubt the existence of several attributed children of Henry and Eleanor.

- Richard (b. after 1247 - d. before 1256),
- John (b. after 1250 - d. before 1256), and
- Henry (b. after 1253 - d. young)

Are known only from a 14th century addition made to a manuscript of *Flores historiarum*, and are nowhere contemporaneously recorded.

- William (b. and d. ca. 1258) is an error for the nephew of Henry's half-brother, William de Valence.

Another daughter, Matilda, is found only in the Hayles abbey chronicle, alongside such other fictitious children as a son named William for King John, and a bastard son named John for King Edward I. Matilda's existence is doubtful, at best. For further details, see Margaret Howell, *The Children of King Henry III and Eleanor of Provence* (1992).

Personal details

- His Royal Motto was *qui non dat quod habet non accipit ille quod optat* (He who does not give what he has, does not receive what he wants).
- His favourite wine was made with the Loire Valley red wine grape Pineau d'Aunis which Henry

- first introduced to England in the thirteenth century.^[2]
- He built a Royal Palace in the town of Crippenham, Slough, Berkshire named "Crippenham Moat".
- In 1266, Henry III of England granted the Lübeck and Hamburg Hansa a charter for operations in England, which contributed to the emergence of the Hanseatic League.

Fictional portrayals

In *The Divine Comedy* Dante sees Henry ("the king of simple life") sitting outside the gates of Purgatory with other contemporary European rulers.

Henry is a prominent character in Sharon Penman's historical novel *Falls the Shadow*; his portrayal is very close to most historical descriptions of him as weak and vacillating.

Henry has been portrayed on screen as a child by Dora Senior in the silent short *King John* (1899), a version of John's death scene from Shakespeare's *King John*, and by Rusty Livingstone in the BBC Shakespeare *The Life and Death of King John* (1984). He was portrayed as an adult by Richard Bremmer in *Just Visiting* (2001), a remake of the French time travel film *Les Visiteurs*.
